

# Whole Body Vibration

**This is for you if you have a need for, or simply desire . . .**

- Targeted fat burning in the abdominal and hip area
- Increased bone density
- Improved overall circulation
- Detoxification by improved lymphatic drainage
- Increased serotonin and HGH levels
- Noticeable reduction in stress levels
- Stronger, more effective core muscles
- Less back pain
- More youthful posture and balance

**At last** — a complete and affordable personal fitness system that really works! Our amazing program uses Whole Body Vibration Technology, first developed by the Russian Space Program in the 1970's.

This technology has been a long kept secret by professional athletes and those “in the know,” who simply have to have the best for their health.

“I have a job that requires me to sit most of the day. At the end of the day my body aches from not moving. **I can get on the machine for ten minutes and feel GREAT.** One of my clients said **it made his back feel better!**” – Wynn N., WA.

“My wife and I noticed flexibility improvements almost immediately. At our age (53 and 45 respectively), this means **less sports related injuries and faster recovery** time from those that inevitably do occur. We love it!” – Chris A., WA

“ I lost 65 Lbs in one year by using this amazing machine only 15 minutes, three times a week! **It completely changed my life!**” – Cari B., WA

“My patients like it a lot! They say **it's fun** to be on and they feel very relaxed and yet energized at the same time. I have also placed ailing patients with certain spinal and muscular/skeletal conditions on the machine and have had **nothing but positive results.** (I look forward to distributing the product. I think it will be a hit!)” – Dr. Dan, HI

**All this as well as a  
personalized, professional fitness coaching program for a full 30-days, with  
the option to continue at an amazingly low fee.**
