

A New Opportunity is Knocking.

What if you could easily offer your clients or employees a new way to:

- Feel better, look better and get better?
- Achieve whole-body toning, detoxification, fat loss, increased bone density and many other preventive health benefits?
- Complete a sweat-free fitness session as easily as standing in place for ten minutes?
- Get better results through core area muscle conditioning, specific stretching exercises, back alignment, balance re-education and general toning?
- Access our wellness coaches who will work with you as well to custom design the sessions for each of your clients? This will prevent injury and maximize the positive results.
- Loose weight with our excellent weight loss program (Seattle Area only)? Other new proven products are being added as our market expands.

What if that same solution helped your business:

- Achieve instant market differentiation that will attract new clients? Many clients ask us where they can try out this machine. This will also give you an opportunity to gain new clients.
- Added income for your practice? We have an excellent referral system which requires no inventory, shipping or consumer training. Each alliance partner will receive a minimum of \$100.00 for each unit sold and a percentage of the profits for all other products and services sold to that client.
- Improve employee productivity and reduce health-related costs?
- Offer value-added services that complement your practice?
- Establish new revenue streams with low cost of entry, paying for itself in less than six months?
- Transform under-utilized space into a low-maintenance profit center?
- Serve up to six clients per hour with virtually no supervision, training, or risk of self-injury?
